

PACKAGE
HANDLING

Package Handling

Core and innovative products and services designed and engineered for the Package Handling Industry.

BDIExpress.com

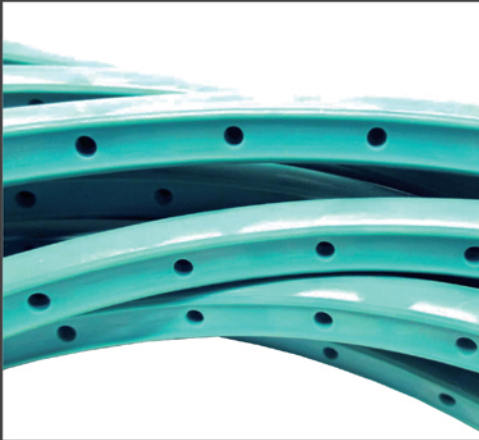

INTRO

BDI is skilled at upgrading the components of plant systems by providing more durable and long-life products.

Engineers and maintenance departments rely on BDI's capabilities to machine and enhance systems from prints, drawings and samples in order to eliminate the lengthy lead times from original equipment manufacturers.

INDUSTRY SOLUTIONS

Driver Pad & Extended Pin Chain

BDI supplies high-quality Fenner Drive's driver pads complemented by long-lasting iwis 50 chain with extended pin. Chains are ASTM stretch-tested with superior lubrication and enhanced hardened bushings.

Small Diameter Rollers

BDI supplies both gravity and driven rollers with ABEC precision bearings that are concentric, smooth and round; sealed not shielded. Approximate 30% longer life offsets a slightly higher cost for a quality product in an integral operational area.

Dodge Bearings

Extreme Duty Dodge bearings offer superior lubrication and seals, while Dodge's D-Lok bearings provide 360 degrees of contact and never come loose. Turn to BDI for Dodge bearing products and solutions that stand up to even the most extreme conditions.

Jam Break Tools

Safely tackle jams on the line with a lightweight tool of quality material and design. Made with employee safety and ergonomics in mind, our Jam Breaker Tool eliminates unsafe conditions and unnecessary physical strain.

Worm Gearboxes

BDI provides gearboxes that are logically engineered not to leak. Key attributes include stability from four bearings vs. three; one-way check valve for positive ventilation; and double vs. single seals.

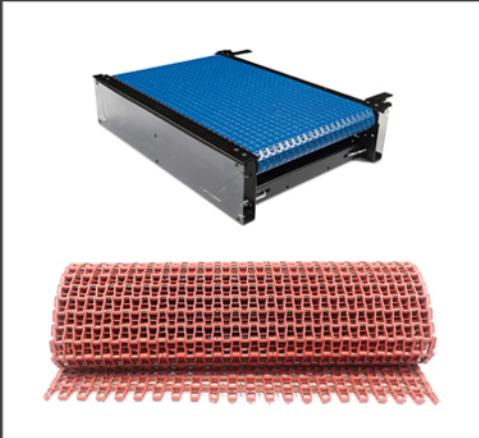

Motorized Pulleys

BDI's Motorized Drive Pulleys offer an alternative to costly external drives. A drop-in replacement, Motorized Drive Pulleys are self-contained and bolted directly into an existing conveyor. Zero overhung load. Options for brakes and variable frequency drives.

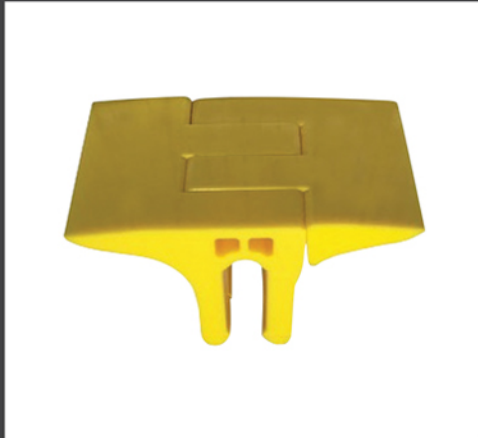

SPECIALTY SERVICES

- Bearing & PT Failure Analysis
- Bearing Reconditioning
- Conveyor Belt Service
- Cost Savings
- Electric Circuit Board Repair
- Engineering Assistance
- Gearbox Repair
- Inventory Management
- OEM Interchange
- On-Site Training
- Panel Building
- Productivity Pipeline
- Plant/Equipment Surveys
- Storeroom Management
- Vending Solutions
- Whiteboard Events

BDI Belt Network

BDI's Belt Network provides expertise in belt selection, operation, and maintenance. Our extensive product line features flat belts and spiral curve belts, all with improved mechanical parts.

Flexco Transfer Plate

Segmented to fit all widths, the Flexco Transfer Plate keeps packages moving by eliminating gaps and helping prevent jams. A low coefficient of friction guarantees a smooth glide across.

Quality Training & Tools

Optimize site operations with BDI's on-site custom belt training. We bring the product, hands-on training (including tracking and measured tensioning), troubleshooting tips, and all the right maintenance tools, directly to your plant.

24-HOUR RUSH SERVICE

Whether provided by your local BDI branch location, or by BDI's Distribution Center, we are available 24 hours a day to keep your operation running in emergency situations.

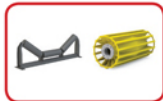

Success Made Easier

BDI is a full line distributor for Bearings, Mechanical and Electrical Power Transmission, Fluid Power, Sealing/Retaining/Lock devices, Industrial Hose and Fittings, Conveyor Belting, Linear Motion and General Industrial products.

Branches are located throughout the USA, Canada, Mexico, Europe and Asia.
